HOUSING

New book by Vandkunsten Architects

Published by Arvinus + Orfeus Publishing, the Nordic region's leading publisher of contemporary art, architecture and design

Arvinus + Orfeus Publishing is proud to present HOUSING, by Vandkunsten Architects.

Housing is a new book by Vandkunsten Architects. It covers ten current projects ranging from the Basic Living Unit, container residences and social housing, to new interpretations of the neighbour Kartoffelrækkerne and luxurious housing in Oslo Fjord – all with focus on housing quality. Each project is presented with a short text, images, illustrations and drawings.

The book is part of a series of publications about the current projects of the studio that are representative of its work throughout the years. Its intention is to inspire others in the business – architects, builders, advisors, students, and so on – through a somewhat more in-depth introduction to some of Vandkunsten's projects.

Vandkunsten Architects is a Danish architecture studio that was established around 1970, when four young architects won a large competition on the future of housing. Currently an office with 70 employees, Vandkunsten Architects still works towards sustainable communities within the full spectrum of architectural practice: from housing and master planning to renovation and transformation of buildings, cities and developments.
